FOUNDER'S NOTE

AAAGRAKSHA

BANGARI SHRAWANTI
FOUNDER & CEO

With over a decade of experience as a story and script writer in the Indian film and OTT industry, I've always believed in the power of storytelling — not just to entertain, but to inspire change. My journey began in 2015, collaborating with Pen N Camera International and later, Don Cinema OTT Platform, where I wrote and developed content for diverse formats ranging from feature films to digital originals.

In 2019, I had the honor of being recognized as the First Lady Director of Odisha, a proud moment that validated my dedication to breaking barriers and creating impactful narratives. This recognition by Kalinga News Channel fueled my passion to not only tell stories — but to build solutions.

Today, I'm the Founder of purpose-driven venture:

Aag Raksha (Bangari's Flame Shield Pvt. Ltd.) –India's first affordable blast-proof gas cylinder shield, designed to save lives in domestic and commercial kitchens. We're on a mission to revolutionize fire safety across rural and urban households by combining innovation with accessibility..

WHAT ARE TEMPERATURE INDICATING LABELS?

Temperature indicating labels show what surface is/are, that visible of change occurs at certain temperature points.

They provide an easy and cost-effective way to monitor surface temperatures at a glance.

KEY FEATURES

ACCURATE INDICATION

Changes color accurately at pre-determined temperature points.

EASY TO READ

Provides bright, clear indication visible at a look.

SELF-ADHESIVE

Strong adhesive backing ensures easy application on any clean surface.

DURABLE & RELIABLE

Resistant to oil, water, chemicals and abrasion.

COST EFFECTIVE

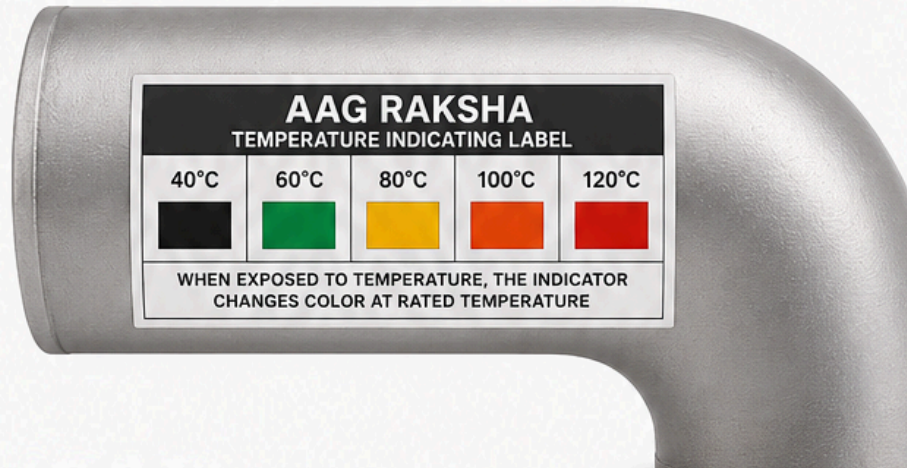

Economical solution for temperature monitoring and safety compliance.

WIDE TEMPERATURE RANGE

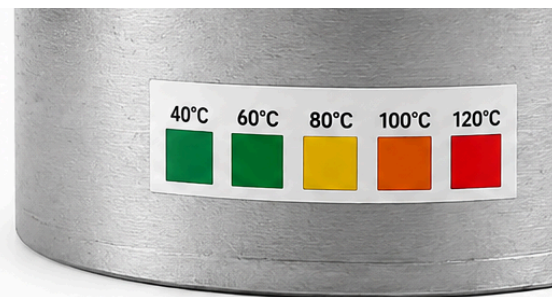

Available in various temperature ranges to cover multiple applications.

SMART TEMPERATURE MONITORING.
SIMPLE. **ACCURATE.** RELIABLE.

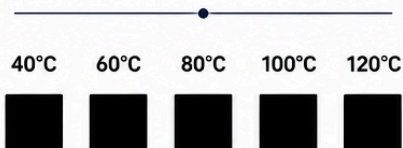

TEMPERATURE INDICATING LABELS

HOW IT WORKS

1

BEFORE TEMPERATURE EXPOSURE

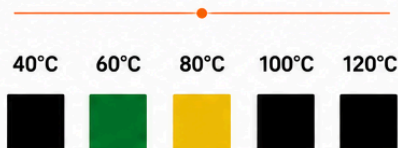

All indicators black

Before use, all temperature indicators are black.

2

AT TARGET TEMPERATURE

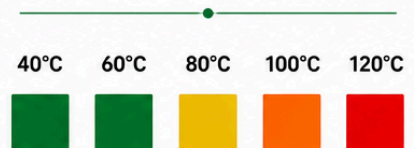

Indicator turns color at the rated temperature

When the target temperature is reached, the corresponding indicator changes color.

3

AFTER TEMPERATURE EXPOSURE

Clear, permanent visual indication

Indicators that have reached or exceeded their rated temperature remain permanently colored.
